4. The computer will start to make a copy of your disk. Once the first stage is complete the following window will appear.

Remove the **original disk** from the drive and insert the **Blank disk**, then click on **Okay**. Ensure that you have inserted a blank disk into the drive as any other data will be lost.

5. When the copy has been made, the following screen will appear:

If you need to make more than one copy of a disk, click on **Start** and then follow the procedure through again, otherwise click on **Close** and remove your copied disk from drive A:\.
