6.0.18	Voyager 7.2.x - Voyager 8.0
4.1.24	Voyager 7.0.x - Voyager 7.1.x

PC Support

Ex Libris tests Voyager software on various personal computer (PC) platforms. Platforms tested are identified based on the following criteria:

- Ex Libris customer usage
- Information gathered from the information technology (IT) community about the most reliable and stable platforms

Ex Libris recommends that you run Voyager software on one of the supported PC platforms. This ensures that you are running in the same environment as the Ex Libris test environment. If there is a problem found that is specific to a nonsupported platform, version/release, or service pack, Ex Libris will advise you to move to a supported platform.

NOTE:

Operating systems not listed are currently not supported.

PC Requirements by Version

This section includes:

- [Overview on page 23](#)
- [PC Requirements for Voyager 8.2.x on page 24](#)
- [PC Requirements for Voyager 7.2.x/8.1.x on page 27](#)
- [PC Requirements for Voyager 7.0.x/7.1x on page 30](#)
- [PC Requirements for Voyager 6.x on page 34](#)
- [PC Requirements for Voyager 5.0 on page 38](#)
- [PC Requirements for Voyager with Unicode on page 41](#)

Overview

PC hardware requirements, for both staff PCs and WebVoyáge PCs, are adequate if minimum requirements for the installed operating system are met.

NOTE:

Operating systems not listed are currently not supported.

PC Requirements for Voyager 8.2.x

Staff PC

Table 19 lists the Voyager staff client PC configuration requirements.

Table 19. Voyager Staff Client PC Requirements

Staff PC Configuration	Staff PC Requirements
Windows 2000 Professional Service Pack: 1.5.00.2195	<ul style="list-style-type: none">■ CPU: Pentium III 450■ Memory: 256 MB■ Disk: 256 MB*
Windows XP Service Pack: 1 Version 5.1 Build 2600.xpclient.01087-1148	<ul style="list-style-type: none">■ CPU: Pentium III 450■ Memory: 256 MB■ Disk: 256 MB*
Windows Vista Business/Vista Enterprise/7 (32-bit or 64-bit)	<ul style="list-style-type: none">■ CPU: 2 GHz or higher■ Memory: 1GB■ Disk: 256 MB*
Video card	<ul style="list-style-type: none">■ XGA resolution or better■ 16-bit color or better
Monitor	<ul style="list-style-type: none">■ 19-inch CRT or better■ 15-inch flat display panel or better

Table 19. Voyager Staff Client PC Requirements

Staff PC Configuration	Staff PC Requirements
Miscellaneous	<ul style="list-style-type: none"> ■ Network interface card with Internet/LAN connection ■ TCP/IP installed and connection to server tested ■ Telnet or terminal emulator client (administrator's machine only) ■ FTP (administrator's machine only) ■ Mouse, roller ball, or other pointing device ■ Audio card ■ Floppy drive
Unicode font	<ul style="list-style-type: none"> ■ An appropriate Unicode font on both the PC and browser ■ Verify that the selected Unicode font includes all required characters
* of the available hard disk space	

IMPORTANT:

Administrative rights are required in order to install or update the Voyager Clients. Windows 64-bit is supported when running the Voyager clients.

Public PC

You must set up all client, Web-based workstations to run the minimum supported version of an approved browser on a Windows operating system. Hardware requirements are minimal and are based only on the need to run the browsers in a given operating system.

Table 20 lists the public PC configuration requirements.

Table 20. Public PC Requirements

Public PC Configuration	Public PC Requirements
Windows 98	<ul style="list-style-type: none"> ■ CPU: Pentium III 400

* of the available hard disk space

NOTE:

If you are working with CJK, the fonts may cause the pages to load slowly. Therefore, if you are using only Latin fonts, select a Latin Unicode font for better performance.

Monitors

To leverage Voyager's multi-window capability in the technical modules (Cataloging and Acquisitions):

- Higher pixel resolution yields an obvious difference. Higher color resolution does not.
- You must be able to display sufficient quality for the patron by being able to read small fonts at the desired resolution.
- Using larger fonts to compensate for a marginal display negates the contribution of higher resolution to the multi-window versatility.
- The requirements for sufficient quality varies based upon individual preference, work area layout, and so forth. Some users require a 21-inch or larger display for adequate workplace comfort.

PC Requirements for Voyager 5.0

Staff PC

Table 27 lists the Voyager staff client PC configuration requirements for Voyager 5.0.
